

Mrs. Ross, we would like to thank you for your generous donations to us. The material that you supply to us is very important to our self growth and our recovery. Me personally, I have not done the work book fully but I have sat in, in the classes and they seem very beneficial and also I would like to give thanks for you giving the books to my counsellor because she also wouldn't be able to teach this class if it were not for these books. So a big thank you.

My name is Tina and I have been at Alt-Care for almost a year. And I'm one of the lucky one that have gotten one set of the books that you donated the book called self. I just wanted to say thank you for them I don't write in mine because someday I hope to use it in a class that I want to teach after I get out of treatment. I can really relate to it because the past 10 years life has thrown every ball it has at me. And some how I keep putting myself back up because I'm never getting even though I have wanted to but this book helps me remember that you can't just role over and die. So thank you so much

Take Care
